Invited Lecturers in Rheumatology at UCSD and LJI (2014-mid-2017):

UCSD Zvaifler Lectureship and Visiting Professorship:

Fifth Annual Nathan J. Zvaifler Rheumatology Lecture – March 18, 2014
Arthur Weiss, M.D., Ph.D.
Ephraim P. Engleman Distinguished Professor
Howard Hughes Medical Institute, UC San Francisco
Title of talk: “Normal and pathologic T cell antigen receptor signaling in humans and mice”

Sixth Annual Nathan J. Zvaifler Rheumatology Lecture – August 26, 2015
Lindsey A. Criswell, M.D., MPH.
Chief, Division of Rheumatology
UC San Francisco
Title of talk: Refining genotype-phenotype associations in systemic lupus erythematosus”.

Seventh Annual Nathan J. Zvaifler Rheumatology Lecture – April 12, 2017
Mary K. Crow, M.D.
Physician-in-Chief
Chair, Department of Medicine
Benjamin M. Rosen Chair in Immunology and Inflammation Research
Hospital for Special Surgery
Title of talk: Interferon and SLE, found in translation

Eighth Annual Nathan J. Zvaifler Rheumatology Lecture – May 9, 2018
Mariana J. Kaplan, M.D.
Chief of the Systemic Autoimmunity Branch
NIH /NIAMS

2014-2017: Other visiting lecturers and professorships to UCSD and LJI Rheumatology and Immunology:

Jorg Goronzy, M.D. Stanford 1/15/14 - Immune senescence and RA

Shu Man Fu, M.D. UVA 10/14 - Frontiers of autoimmunity

Erik Peterson, M.D. U Minnesota 12/14 - Molecular foundation of autoimmunity

Jim O'Dell, M.D. U Nebraska 5/15 - New perspectives on DMARD and biologic therapy for RA

Professor Christopher Buckley. U of Birmingham, UK 10/15 - The role of stromal cells in chronic inflammation

Professor Tony Merriman. U of Otago, New Zealand 11/15 - Unique gene-environment interactions in rheumatic diseases

Gregg Silverman, M.D. NYU 7/16 - The microbiome in SLE

Jane Buckner, M.D. Benaroya Institute UW 4/16 - How autoreactive T and B cells escape regulation

Bill Robinson, M.D. Stanford 9/16 - Array technologies for RA

Soumya Raychaudhuri, M.D. Harvard 12/16 - Bioinformatics in autoimmune disease
